----Suggestions--
Create study groups
Meet at least 15 mins per day to go over the assignment
Select a Lead
That lead should give me a report of how the group is doing
—————————————————————————————————-

Class: StageMovementTest
Method: stageMovements

----

http://automationpractice.com/index.php

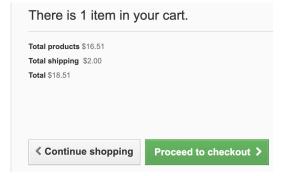

When a user is on the page
Click on Add To Cart
And verifies the product is added to the cart
And verifies the color, size, quantity, price, shipping, Total Price
(Example: Color : Orange, Size:S, Quanty:1 ,Price : $16.51, Shipping: $2.00, Total Price: $18.51)

And clicks on Proceed to checkout
Then verify the Summary card is displayed(SELECT A CORE ELEMENT ON THAT PAGE FOR VERIFICATION: EX **SHOPPING-CART SUMMARY**)
Then verify the product is In stock

Then verify the Unit price matches the price that is on the Add To Card page

And user clicks on + sign
Then verifies the TOTAL price is 2*price+shipping

Qty	Total
2 − +	$33.02

And click on Proceed to checkout
Then verify sign-in page displayed
Then the user enters a username password and sign in
Then Verify user is on the Address stage
And click on Proceed to checkout
Then verify user moves to the Shipping stage(**SHIPPING**)
And click on Proceed to checkout
Then verify the error message: You must agree to the terms of service before continuing.
Then click on x to exit out
And click on the Terms of service checkbox
And click on Proceed to checkout
Then verify a user is on the Payment stage(**PLEASE CHOOSE YOUR PAYMENT METHOD**)
